**GERMAN COMPANY SUPPLIES  
MINISTRY OF WATER  
RESOURCES AND IRRIGATION  
WITH NEW TECHNOLOGY**

ASTECC, a German leader in IT-based knowledge management solutions, announced that it has provided Egypt's Ministry of Water Resources and Irrigation (MWRI) with a sophisticated and fully Arabicized Library Management System. This project comes as part of MWRI's ongoing modernization plan, initiated and directed by HE Dr. Mahmoud Abu Zied, Minister of Water Resources and Irrigation. The new system allows for better management of information resources facilitating access to material from libraries, archives and databases. Klaus-Dieter Kees, Managing Director of ASTEC will visit Egypt again on January 17 to participate in the annual Cairo ICT exhibition.
